ANNON RAIN.

A few small sized oak and wood stoves, just the thing for temporary purposes, at Sutherland's store and furniture stores, numbers 19 and 20 North Main street.

SHREFFLETS.

By one more day the mill race can be used for a promenade without much danger of wet feet.

—If you want to see a nice line of neckties for 25 cents, look at the window of Knell, Allen & Co.

—Where would Janesville be now if it had only fire protection was a pumping plant run by water power?

—W. H. Sargent Post No. 20, G. A. R., assembled in regular semi-monthly session this evening at Post hall.

—No Milwaukee mail was received in town this morning on account of a break between here and Watertown.

—That sheep killing on the Milwaukee & St. Paul railroad yesterday, finished up fifty-three out of a flock of seventy.

—Another party of men from this city started for Kansas City to-day, going there to take positions on the Milwaukee & St. Paul road.

—The Janesville Gazette may be found at Anderson's barber shop, for the accommodation of those who arrive after the office is closed.

—The National Union assembly in regular semi-monthly meeting this evening—lodge room in the Jud block, North Main street.

—People's Lodge No. 450, Independent Order of Good Templars, assemble in regular weekly session this evening—lodge room in the Court Street M. E. church block.

—Will Jerome, an old Janesville boy, but now general western passenger agent of the New York Central, returned to Chicago this morning after visiting his mother in this city.

—Milwaukee street and its cholera-morbus pavement caught another victim this morning. A meat wagon was wrecked, and pieces of fresh beef scattered all over the car track.

—Reliable authorities say that T. T. Crotts successor as agent for the C. M. & St. P. has already been appointed. The appointment will not be made public, however, until September.

—The property owners interested in the West Milwaukee street pavement will hold a meeting at the council chamber this evening, at eight o'clock. A full attendance of interested parties is desired.

—A. A. Heath, A. A. Kingensmith, Geo. E. Nichols and James Winters, Chicago & Northwestern engineers, have been arrested at Fort Howard, charged with running trains too fast. They have not yet had a hearing.

—Judge Bennett gave Mrs. C. E. Date a divorce this morning because her husband had stolen horses and left called upon to spend the next ten years of his life in Waupun. Judge Dunnwaldie, of Monroe, appeared in her behalf.

—J. B. Doe, Stanley B. Smith, William Bladen, J. M. Bostwick and Dr. Henry Palmer were examined one after another in the Williamson case to-day. Their testimony was principally corroborative that of Mr. E. B. Moses.

—"To-morrow evening from seven to nine, the city library will be open to the public. On account of Mrs. Best's illness, however, there will be no books issued until Monday, but all are invited to call and see the new quarters.

—Funeral services over the remains of the infant son of Mr. and Mrs. A. E. Finlay will be held at the residence, on East Milwaukee street, to-morrow morning, at nine o'clock. The remains will be taken to Deloit for interment.

—People from Deloit coming to the metropolis should remember and bring guide books. One carriage-full of Line City young folks, their way last night, and started up two-thirds of Main street trying to find a lantern and someone to steer them.

—The river above the upper dam at about ten inches lower than at seven o'clock last evening, and the water is falling rapidly down from the dam. A few hours more waste of water and there will only remain the natural flow of the river, which at this time is very little.

—Owing to the low water in the river last night the machinery of the electric light could not be operated, consequently 7 people, especially business house depending on the "carbons" for light were left in the dark. The same was the case in the streets, where the gas lamps had been discontinued.

—Commission men have been sending fruit into Janesville lately, that should properly have been consigned. In one or two cases it was shipped back to Oshkosh on the next train, and other lots were kept and put on sale. Probably this accounts for much of the sickness that people usually lay to "change of weather."

—More or less very spicy comment has been made on the report that one of Janesville's best known young men, accompanied by a lady, registered at the Milton hotel last night as "H. K. Wolf and wife, Chicago." Of course if the lady is one, but what bothers the boys is how getting married made him change his name.

—Paul Goerling, who has been with F. S. Winslow for over three years, will begin work next week for W. T. Vankirk. Paul's friends are without number. His bland smile and sly-like movements, besides his ability to sell more groceries than any man of his size in the city, make this very natural, and grocery men seem to appreciate it thoroughly.

—On Tuesday night eleven of the Oshkosh aldermen tendered their resignations, owing to a little difficulty in the board of health growing out of the prevalence of diphtheria in that city. The council accepted the resignations and the vacancies will be filled by special elections. The idea of a Wisconsin alderman resigning is something new. What next?

—Wednesday night the western Chicago, Milwaukee & St. Paul passenger train was stopped at a point about two miles this side of Elkhorn. Several lights of glass were broken and Herbert Richards, of Lake Geneva, severely injured about the head. It is suspected that parties resident in that vicinity are guilty of the outrage. The point is one that the railway company has had under surveillance several times on account of attempts to derail trains.

"DOG IS' ALL RIGHT."

So Mrs. Newman Says Regarding Her Indian Son-In-Law, Ut-Ta-Wa-Um.

She Wishes That People Wouldn't "Kick Up Such a Stink About It."

In a hall back-room of the Park house to-day, sat Mrs. John Newman, mother-in-law of the Indian doctor. The smile which played over her matronly face was only partly obscured even by the look of vexation that followed the introduction of a reporter, and made her seem quite well pleased with the surroundings generally.

"Now what do you want of my story?" she responded quickly when the reporter asked for her account of the recent marriage. "It will only be another stick to throw into the papers, and people have talked enough about us already. I wish folks would mind their own business."

Finally she related and explained that both she and Mr. Newman, who is a sewing machine agent, had known of the wedding some time before. Ut-Ta-Wa-Um's first wife was buried on June 30th, and the other marriage occurred August 2d.

"We never made any word against the doctor," said Mrs. Newman, with a noticeable German accent; "because we knew the girl was going to marry him anyway, and it was no use to cry over spilt milk. We never went around for to make a sensation and all we wanted was it folks would keep away."

Mrs. Newman is here as the guest of her son-in-law, and the two seem to agree perfectly. They laugh at the idea of any dispute and say the stories published in Racine were made up of whole cloth.

NOT THIS YEAR.

So the Commissioners Think Regarding the New School House.

Just what the school board will do about the second ward building is hard to say. At the meeting last night very little was done, although the time left before cold weather sets in is growing short. Most of the commissioners begin to think that work should not begin until next summer. The two exceptions are Commissioners Metcalf and Stevens. To a Gazette reporter they gave their opinions as follows:

Commissioner Stevens—"I think that we can have the building just as well as not if we get it right at it. I am against going into the present building again after Mr. Colling's report unless it fits outside stairways and a shuffling around the furnace."

Commissioner Metcalf—"I am of the same opinion, and think that arrangement should be made at once."

President Sutherland—"The new walls should have been up by this time and men at work on the inside. If we have to get plans and specifications yet, we cannot have the building this year."

Commissioner Holloway—"To try to do anything before next season would be simply a waste of time. The only way to put up such a building is to have everything on the ground before school opens and so get a good start."

Commissioner Judd—"I am anxious to have the house this year if we can, but just now it looks rather dubious."

Commissioner Wilson—"It occurs to me that we would barely be wise to commence this fall anyway. The expense of fitting up rooms outside would not be made up for by the advantages gained."

Commissioner Keefe—"I want the school, but if we try to build this fall I'm afraid it will cost more than we can stand."

WILSON'S ADDRESS NERVE.

The best advice in the world for cats, braves, nerves, aches, pains, rheumatism, colds, fevers, chills, cholera, cholera, and all other ailments, is to take Golden Balm. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by F. Sutherland & Co.

WISCONSIN PATENTS.

List of patents granted to residents of Wisconsin for the week ending, August 23, reported for the Gazette, by Solicitor of Patents, Robt. H. Read, 605 and 607, Washington, D. C.

William Shure, Bedford—manufacture of emery.

Jas. Montgomery, Wausau—wood burning furnace.

DeWitt C. Prescott, Marinette—saw mill set works.

DeWitt C. Prescott, band-saw mills.

Theodore S. Glencoe, La Crosse—saw lock.

Wilson R. Smith, Beloit—converting motion.

Three Harvards Excursions.

Will be run by the Chicago, Milwaukee & St. Paul Railway on Tuesday August 30, Tuesday September 20, and Tuesday, October 11, 1887, to all prominent lake points in Northern Iowa, Western Minnesota, Dakota and Nebraska, at one fare for the round trip. Excursion tickets will be good to return within thirty days from the date of sale. For further information address A. V. E. Carpenter, General Passenger Agent, Milwaukee, Wisconsin.

England Credits America with the Most Successful Cure for Diphtheria.

London, Aug. 25. At the test recently made with different devices for the relief of diphtheria, gathered from all parts of the world, the verdict was unambiguously in favor of the invention of A. W. Wainwright, of Chicago, as in many cases where all others failed this invaluable device was successful.

At seven o'clock this morning the thermometer indicated 54 degrees above zero. Cloudy with northwest wind. At one o'clock p. m. the register was 71 degrees above zero. Cloudy with northeast wind. For the corresponding hours one year ago the register was 64 and 90 degrees above zero.

FOR RECEIVING EMPLOYED BY THE CITY AND GENERAL BUSINESS.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites, is the most reliable of all medicines. Read the following: "I gave one bottle of Scott's Emulsion to my own child for Scrophulous, and the effect was marvellous." O. F. GALT, M. D., White Hill, Ind.

At Night.

Soother at hand. It is the only safe medicine yet made that will remove all the worst cases of Croup, Whooping Cough, and all other ailments of the throat and lungs. Price 25 cents. Sold by F. Sutherland & Co.

Sold by F. Sutherland & Co.

THE WEATHER SIGNALS.

Why Not Have Them Displayed at Prominent Places in Janesville?

Now that people generally have considerable faith in the weather signals sent out daily from Washington, why not have some arrangements made for the display of flags, on the flag staff at the court house, or on one of the city engine houses? The flags are not expensive, and it would not be much expense to either the city or to the flags properly displayed. Nearly every city in the country displays these signals, and the people, especially the farmers, derive much benefit therefrom. The signal service bureau furnishes, when practicable, for the benefit of the general public and those industries dependent on a greater or less extent upon weather conditions, the "indications," which are prepared at the office daily, at 1 a. m., for the twenty-four hours commencing at 7 a. m. These weather forecasts are telegraphed to signal service stations, railway officials, and many others, and are so worded as to be readily communicated to the public by means of flags or symbols. The flags adopted for this purpose are four in number.

WISCONSIN NEWS.

Items of Interest from Various Parts of the State.

Mills in Wausau are shutting down for lack of logs.

The grape crop in Sauk county will be the largest for years.

A Chicago soap manufacturing firm is negotiating for a site in Marinette.

A Durand Creamery shipped 2040 pounds of butter to Chicago Tuesday.

Dr. Atkinson killed a glaucous horse at Black River Falls Wednesday.

Baraboo closed its second theatre between Chicago and Winona.

On account of the effects of the drought, the Kanabha county fair has been given up for this year.

The carriage and paint shop of J. J. Bryson, of Oconomowoc, was burned Wednesday. Loss \$1,000; no insurance.

There was a slight thawing of the lowlands near Beaver Dam Tuesday night, but, however, doing any particular damage.

Bertha Kjel was killed at Waukegan by a blow on the head from a block on the end of a larlat attached to a run away horse.

Don McNeil, of Oshkosh, has discovered a new yellow colic, and believes there is a valuable deposit of iron underneath the point.

The city water works at Hudson struck a small stream of flowing water at a depth of 300 feet, Wednesday. Drilling will be continued.

Wednesday evening a 10-year-old son of John McNeil, of Racine, fell from a shelf to the floor, eight feet below and broke his neck.

Miss Thelma Trapp, of Oshkosh, in trying to climb a "masher" walked off an open ladder and narrowly escaped being killed by the falling of the ladder.

A little girl aged five named Crooks has been arrested at Lima, Grant county, charged with shooting a boy named Leslie, aged nine years old, with a gun loaded with seeds of weeds.

Memoranda expects to enjoy a free delivery system in the new very distant future. Postmaster General Scott has given the records of the office will reach the required \$10,000 during the present fiscal year.

At De Pere 120 men and boys have been idle at the wooden ware factory the past week. The carpenters were notified to cut out the wood to be used in the factory, but the men refused to do so. They refused to work.

Chauncey D. Clark, of Greenleaf, Brown county, was arrested at the instance of H. E. Meyer, who has a cheese factory at that place, for poisoning a cow. He was taken to the factory to be manufactured. Clark paid \$24.00 fine.

Orange Walker, of Marine, Polk county, recently deceased, was 24 years of age, and the oldest settler in the town of Orange. He was born in 1837, making him one of the oldest settlers in the St. Croix valley. He had always been a prominent citizen and a business man on the river.

Tom Wiedner has never used a self-blower for his 100 acre farm at Manitowish. He says it is cheaper to hire all his grain cut by the mow. He says the cost of the mow is in binding, the cost of the mow is in binding, the cost of the mow is in binding.

Besides the average life of a self-blower is not over four years. Another new departure of his is that he never uses his straw better and more quickly, that it makes better fodder, and that the quality of the grain is improved by allowing it to lay awhile in the swath. He saves the labor of binding and says the cost of a mow condition can be "fed" in threshing much more regularly than in that fashion, and could not be induced to return to the old method.

MUSIC CLASS.

F. L. Hayden has decided to organize his music class on Monday evening next, at Court Street Sunday school room at 7:30 p. m. Those desiring to become members are requested to be on hand at that time. The course will embrace elementary work in reading and voice culture. Terms, \$2.00, payable in advance.

NEW STORE! NEW GOODS!

Just received! A full line of Trunks and Valises. Dressed selected goods, latest styles in clock and patterns. Prices to suit the times.

M. A. OTT.

No. 157 North Main St.

In Brief and To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, bad cooking, much worry, late hours, irregular hours, and many other things which ought not to be, have made the American people a nation of dyspeptics. August Flower has done a wonderful work in reforming this sad condition and making the American people healthy again.

Remember, August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

For BALD or RENT—A new house with bay window in front, cistern, and as good a well of water as can be found in the city. Possession given the first of September. Inquire at 305 South Jackson street.

Choice cigars and chewing tobacco Golling's.

Fresh arrival of Curtains and Shade Cloth, at Sutherland's bookstore.

For RENT—Rooms furnished or unfurnished, at the Madison House. Inquire of Mrs. C. L. Mitchell, No. 261 West Milwaukee street.

"TOO MUCH BYE-AND-BYE."

This Is What Ails the New Second Ward School Building.

The School Board, They Part Of the Council's Order and Ignore the Rest.

Even the rain could not keep the school commissioners at home last night. They rather expected a monkey-and-parrot sort of a time and wanted to see the fun. But they were all disappointed. The white wings of peace had everything in its own way. Commissioner Judd bustled himself pouring steam-heated rally into the air of his whilom opponent, Commissioner Holloway, and Commissioner Wilson swapped honey with Clerk Metcalf.

In opening the meeting an order from the council was read instructing the board to change the heating plans of their new second ward school from hot air to steam. There was also an order to report to the council by what authority the board was paying a salary to one of its members.

Commissioner Stevens introduced the following order:

That the clerk procure plans as near as possible like those drawn up by Architect George K. Colling for a six-room school building in the second ward, to be heated by steam and furnished completely, for a sum not to exceed \$12,000, and report the same to the board as soon as possible. Also, that the clerk appoint a committee of three to set with the clerk in the matter.

Commissioner Stevens' order was adopted and Commissioners Judd, Holloway and Stevens were appointed as the committee.

After arranging for the new building the commissioners began to wonder what to do for school rooms while it was going up. Two plans were suggested. One was to fit up the old building and run it another winter, not beginning on the other until next June. The other was to begin at once, providing for the scholars meanwhile in whatever rooms could be secured. Commissioners Keefe, Holloway and Metcalf were appointed to look over the ground.

The other business done was of no special importance. The beginning of the school year was changed from September 12th to September 13th. Provision was made for relieving some of the over crowded grammar rooms and Blair & Gowley were paid \$1,000 for coal. It was expected that some action would be taken on the part of the council's report regarding referring to the clerkship, but none seemed inclined to break the ice.

A MARINE MONSTER.

A Boat Dragged Miles Through the Water by a Huge Sea Turtle.

"Look there, the sea-monster, by night!" exclaimed one of Captain C. L. Griffin's crew the other afternoon, according to their commanding officer. Several instances of this have happened in the Gulf of Mexico, where devil-fish, as they are called there, have run off with small boats, and even larger craft. The monster, in one instance a skipper "turned in" at night in a harbor, and awoke in the morning to find himself out of sight of land; the boat was nowhere to be seen, and the skipper and crew were nowhere to be seen. The monster, in one instance a skipper "turned in" at night in a harbor, and awoke in the morning to find himself out of sight of land; the boat was nowhere to be seen, and the skipper and crew were nowhere to be seen.

On the night of the 15th, a small boat
